

Remarks

Claims 1-31 are pending in the application, with 1, 8, 10, 17, 24-26, and 30 being the independent claims. No new matter was entered by the addition of FIGS. 11A-11D and text related thereto.

Support for the amendment to specification page 5 after paragraph [0027] and page 18 after paragraph [0050] is found, *inter alia*, in the originally filed claims. For example, FIG. 11A is supported by at least claims 4 and 20, FIG. 11B is supported by at least claims 6, 9, 15, 22, 25, and 31, FIG. 11C is supported by at least claims 5 and 21, and FIG. 11D is supported by at least claims 3 and 19. However, these figures are merely exemplary of optical elements than can include features found in these claims and are not meant to be limiting. Thus, other optical elements can be used that provide the functionality found in the claims without departing from the scope of the present invention.

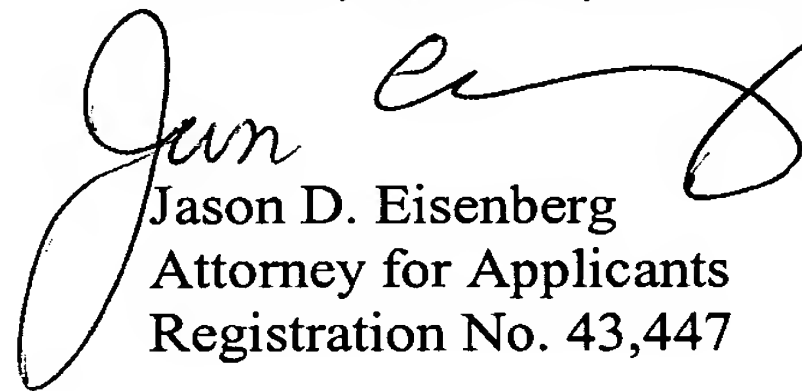

A copy of Formal drawings for FIGS. 11A-11D are attached hereto and are being submitted to the draftsman herewith.

Conclusion

Prompt and favorable consideration of this Preliminary Amendment is respectfully requested. Applicants believe the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Respectfully submitted,
